

The premier event in thrombosis in 2010: **21st International Thrombosis Congress**,
6-9 July 2010, Milan, Italy.

The congress is organized by Prof. P.M. Mannucci, under the auspices of the Mediterranean League
Against Thromboembolic Diseases.

The four-day program will host outstanding speakers and hot topic symposia on subjects like Therapeutic
advances in stroke, Special problems and strategies in anticoagulation, New anticoagulants, Venous and
arterial thromboembolism. Lectures will be held on both clinical and basic science.
